
blaugelb Radio Receiver

The clever addition for roller shutter motors from blaugelb that are already installed.

Product features:

The blaugelb Radio Receiver with a transmission power of 10 MW is used to control blaugelb Roller Shutter Motors for roller shutters, awnings and comparable applications with short operating times. It works reliably and is robust. The application is intended for dry environments.

With the blaugelb Radio Receiver 10 MW in combination with a blaugelb Radio Hand-Held/Wall Mounted Transmitter, a blaugelb Roller Shutter Motor COMFORT or ELECTRONIC that is already installed can be quickly and easily retrofitted with wireless capability. The mechanical installation, the electrical connection and even the programming are very simple and fast.

The blaugelb Radio Receiver comes with a two-year warranty.
