

Reliable protection even in tight spaces – the **sprung blaugelb Wall Bump Stop** is a winner throughout the range.

## blaugelb Wall Bump Stop, sprung

The reliable protection for wall-mounting.

### Product features:

The sprung blaugelb Wall Bump Stop is a robust, sprung stop in solid light alloy. The stable housing for wall mounting can reliably withstand even intensive stresses. Thanks to the integral spring, the wall bump stop is particularly suitable for heavy doors. The rubber stop used has an extended lifetime, thanks to the choice of high-quality materials, and exhibits low wear.

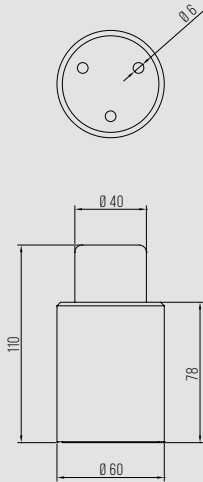

The screw-fastening is concealed by the wall plate, enhancing its elegant looks.

- Sprung wall bump stop
- Elegant appearance, thanks to concealed screws
- Serious quality thanks to its solid housing
- High-quality rubber stop with long life
